THE VISION FOR LOS MOLINOS UNIFIED

“All students will be given the opportunity to be college and career ready through learning in a caring and rigorous academic environment!”

MESSAGE FROM SUPERINTENDENT JOEY ADAME

With the growing demand of high skill workers in a variety of industry sectors requiring college degrees and advanced training, it is imperative that we prepare our students to be innovators and metacognitive thinkers. In Los Molinos, we believe ALL students, regardless of language barriers, race, socio-economic status or ethnic background, shall be afforded options and opportunities to be future ready. With English learners comprising a quarter of the state’s six million students, it is essential that we implement high leverage instructional practices related to English learner outcomes. We must commit to the whole child being literate, reaching their full potential in listening, speaking, reading, and writing.

As learners and educators, we must create a system where English Learners can develop the skills to implement the six C’s of education; Critically Thinking, Collaboration, Citizenship, Communication, Creativity, and Global Character. We will do this by incorporating Project Based Learning and embedding language development into every opportunity for instruction. No student is denied equity and access based upon who they are or where they live.

Every child in Los Molinos deserves a Champion, and we are committed to ensuring All students receive a quality education with no barriers!

OVERVIEW

This master plan provides guidance and direction to administrators, teachers, support staff, students, and families regarding the expectations that Los Molinos Unified School District holds for English Language Development (ELD). It serves as practical guide for sites to ensure that consistent and coherent services are provided to every English Learner (EL). All educators are expected to implement this plan with fidelity, and we will hold each other accountable for doing so while continuously improving our services and outcomes.

Federal case law requires that the main goals of the English Learner Program be to develop English Learner fluency in English as effectively and rapidly as possible and to develop mastery of the core curriculum comparable to native English speakers.

The State Board of Education’s vision is “all students of the 21st Century will attain the highest level of academic knowledge, applied learning and performance skills to ensure fulfilling personal lives and careers and contribute to civic and economic progress in our diverse and changing democratic society” {SBE 2012}

Los Molinos Unified School District is committed to developing academic English language proficiency, a positive self-image, and reclassification to Fluent English Proficient as well as developing an appreciation of the cultural and linguistic diversity English Learners bring to the community.

In order to achieve these district & federal goals, LMUSD will:

- Implement state adopted ELD standards across all content areas and grade levels
- Provide on-going ELD professional development in high leverage instructional strategies.
- Track EL learner progress and make changes to ensure growth is made
- Use academic language strategies in all core subjects
- All teachers will use common assessments to inform instruction

STATE DEMOGRAPHICS

More than six million and one quarter students are enrolled in California’s public schools in transitional kindergarten through grade twelve. Our students come from a range of ethnic backgrounds; live in different socio-economic circumstances; are being raised in different geographic, community, and familial settings; have different cultural experiences and histories. Some are new to California and the United States, and some are the most recent generation in a long line of Californians. California has the largest number of English Learners (EL) in the country. More than 21.4 percent of California’s students in K-12 are designated as EL’s with over 65 language groups represented (CDE California Language Census, Fall 2016).

Language	Percent
Spanish	83.10%
Vietnamese	2.14%
Mandarin (Putonghua)	1.59%
Arabic	1.40%
Filipino (Pilipino or Tagalog)	1.31%
Cantonese	1.20%
Korean	0.77%
Hmong	0.74%
Punjabi	0.72%
Russian	0.63%

DIVERSITY AND CHARACTERISTICS OF ENGLISH LEARNERS

Students who are English as an additional language come to California schools from all over the world, and many were born in California. Schools and districts are responsible for ensuring that all ELs have full access to an intellectually rich and comprehensive curriculum, via appropriately designed instruction, and that they make steady and even accelerated progress in their English language development.

Age: It is important to note that ELs learn the English Language at different stages of their cognitive development. English learners entering the U.S. in the Kindergarten, for example, will benefit from participating in the same instructional activities in literacy as their non-EL peers, along with additional differentiated support based on student needs. All EL’s should have full access to the same high quality, intellectually challenging, and content rich instruction and materials as their non-EL peers, along with effective levels of scaffolding to ensure success.

DIVERSITY AND CHARACTERISTICS OF ENGLISH LEARNERS (cont.)

Primary language and literacy background: English learners have varying levels of knowledge, skills, and abilities in primary language and literacy. Older ELs may also have considerable content knowledge in core disciplines, such as science or math. Many ELs continue to develop primary language and literacy in both formal bilingual programs or less formally at home. English learners can draw upon their primary language and literacy skills and knowledge and also the content knowledge they have developed in their primary language to inform their English language learning and content knowledge development. Rather than leaving this cross linguistic transfer up to chance, teachers should approach transfer intentionally and strategically. Other ELs may have very limited schooling backgrounds and may have gaps in literacy skills (e.g., decoding, comprehension) and so will require substantial support in particular aspects of literacy instruction. Even with strong primary language foundations, however, some EL adolescents may struggle to master disciplinary literacy, given the accelerated time frame in which they are expected to meet grade level content area expectations

Time in the U.S.: Many ELs were born in the U.S. or began their US schooling in kindergarten. English learners who were born in the U.S. or who have been in U.S. schools for a number of years are fluent in conversational, or *everyday* English (although there may be gaps in some ELs' knowledge of everyday English), and need to develop academic English in an accelerated manner. Other ELs enter U.S. schools with limited exposure to American culture or to English. Newcomer EL students, students who have been in U.S. schools for less than one year, should be provided specialized support to ensure their accelerated development of English, as well as their social integration into their schools. Primary language assessments should be used, when available, with older students who are newcomers to English in order to determine an appropriate instructional program. Especially important to note is that students with strong backgrounds in formal schooling, those who may be performing at grade level in their primary language but who are new to English, will require different specialized instruction than students with less formal schooling.

Progress in ELD: Regardless of their age, primary language and literacy backgrounds, and time in U.S. schools, all ELs should make steady progress in developing English, particularly the types of academic English needed for school success. However, many ELs may have not received the educational support from schooling that they need to continually progress in developing English and for succeeding in academic subjects. These students have been identified as *long-term English learners* (LTELs) because they have been schooled in the U.S. for six or more years but have not made sufficient linguistic and academic progress to meet reclassification criteria and exit EL status.

Long-term English Learners: 2013 California Education Code 313.1. a & b defines a long-term English learner as "an English learner who is enrolled in any of grades 6 to 12, inclusive, has been enrolled in schools in the United States for more than six years, has remained at the same English language proficiency level for two or more consecutive years" as determined by the state's annual English language development test. In addition, the same California Education Code identifies English learners at risk of becoming long-term English learners as those EL students enrolled in any of grades 5 to 11, in schools in the United States for four years, and who score at the intermediate level or below on the state's annual English language development test the fourth year at the below basic or far below basic level on the English language arts standards based achievement test.

2012 CALIFORNIA ENGLISH LANGUAGE DEVELOPMENT STANDARDS

California’s 2012 English Language Development Standards (ELD Standards) reflect an extensive review of established and emerging theories, research, and other relevant resources pertaining to the education of the K-12 English learners (EL). This wide body of scholarship and guidance was used to inform the development of the CA ELD Standards. They were also used to ensure that the CA ELD Standards highlight and amplify those language demands found in the California State Standards for English Language Arts (ELA) and Literacy in History/Social Studies, Science and Technical Subjects that are necessary for the development of advanced English and academic success across the disciplines. The California State Standards served as the core foundation for developing the CA ELD Standards, which are intended to guide teachers to support EL’s English language development as they simultaneously learn rigorous academic content.

The CA ELD Standards position English as a meaning making resource with different language choices available based on discipline, topic, audience, task, and purpose. This notion of English as a meaning making resource necessitates an expanded notion of *academic language* from simplistic definitions (e.g., academic vocabulary or syntax) to a broader conceptualization that encompasses discourse practices, text structures, grammatical structures, and vocabulary, and views these as inseparable from meaning (Bailey and Huang, 2011; Wong Fillmore and Fillmore, 2012; Snow and Uccelli, 2009). Academic English shares characteristics across disciplines (it is densely packed with meaning, authoritatively presented, and highly structured) but is also highly dependent upon disciplinary content (Christie and Derewianka, 2008; Moje, 2010; Quinn, Lee, and Valdes, 2012; Schleppegrell, 2004). The California State Standards emphasize the need for all students to be able to comprehend and produce complex texts in a variety of disciplines so that they are college and career ready. Research suggests that teachers can foster, and even accelerate, the development of academic English for EL students through multilayered and multicomponent approaches that incorporate attention to the way English works in different contexts.

The extensive body of theories and research drawn upon to inform and guide the development of the CA ELD Standards demonstrate that effective instruction for ELs focuses on critical principles for developing language and cognition in academic contexts. These principles emphasize both interaction in meaningful ways and the development of metalinguistic awareness in contexts that are intellectually rich and challenging, focused on content, strategically scaffolded, respectful of, and resourceful about the cultural and linguistic knowledge students bring to school (CA ELD Standards, Appendix C).

ENGLISH LANGUAGE DEVELOPMENT PROFICIENCY LEVELS

In November 2012, the State Board of Education adopted the new ELD Standards. California school districts are now transitioning from our current English Language Proficiency Assessments for California (ELPAC) to a new English Language Proficiency Assessment of California (ELPAC). By spring 2018, the five proficiency levels listed below will be replaced by the three new proficiency level descriptors listed on the next page. Our district will continue to use both sets of descriptors to teach and assess students' language development until the transition is complete and the new English language proficiency assessment (ELPAC) is adopted by the California State Board of Education (SBE).

ELPAC PROFICIENCY LEVEL DEFINITIONS

Beginning

Students performing at this level of English language proficiency may demonstrate little or no receptive or productive English skills. They are beginning to understand a few concrete details during unmodified instruction. They may be able to respond to some communication and learning demands, but with many errors. Oral and written production is usually limited to disconnected words and memorized statements and questions. Frequent errors make communication difficult.

Early Intermediate

Students performing at this level of English language proficiency continue to develop receptive and productive English skills. They are able to identify and understand more concrete details during unmodified instruction. They may be able to respond with increasing ease to more varied communication and learning demands with a reduced number of errors. Oral and written production is usually limited to phrases and memorized statements and questions. Frequent errors still reduce communication.

Intermediate

Students performing at this level of English language proficiency begin to tailor the English language skills to meet communication and learning demands with increasing accuracy. They are able to identify and understand more concrete details and some major abstract concepts during unmodified instruction. They are able to respond with increasing ease to more varied communication and learning demands with a reduced number of errors. Oral and written production has usually expanded to sentences, paragraphs, and original statements and questions. Errors still complicate communication.

Early Advanced

Students performing at this level of English language proficiency begin to combine the elements of the English language in complex, cognitively demanding situations and are able to use English as a means for learning in content areas. They are able to identify and summarize most concrete details and abstract concepts during unmodified instruction in most content areas. Oral and written production is characterized by more elaborate discourse and fully developed paragraphs and compositions. Errors are less frequent and rarely complicate communication.

Advanced

Students performing at this level of English language proficiency communicate effectively with various audiences on a wide range of familiar and new topics to meet social and learning demands. In order to attain the English proficiency level of their native English speaking peers, further linguistic enhancement and refinement are still necessary. They are able to identify and summarize concrete details and abstract

concepts during unmodified instruction in all content areas. Oral and written production reflects discourse appropriate for content areas. Errors are infrequent and do not reduce communication.

2012 CA ELD PROFICIENCY LEVEL DESCRIPTORS

The Proficiency Level Descriptors (PLDs) provide an overview of stages of English language development. English learners are expected to progress through these stages as they gain increasing proficiency in English as a new language. The PLDs describe student knowledge, skills, and abilities across a continuum, identifying what ELs know and can do at each of the three proficiency levels: **Emerging**, **Expanding**, and **Bridging**. These descriptors are intended to be used as a guide to provide ELs with targeted instruction in English as well as differentiated instruction in academic content areas. However, ELs at all levels of English language proficiency must fully participate in grade level tasks in all content areas with varying degrees of scaffolding in order to develop both content knowledge and English.

Emerging

Students at this level typically progress very quickly, learning to use English for immediate needs as well as beginning to understand and use academic vocabulary and other features of academic language.

Expanding

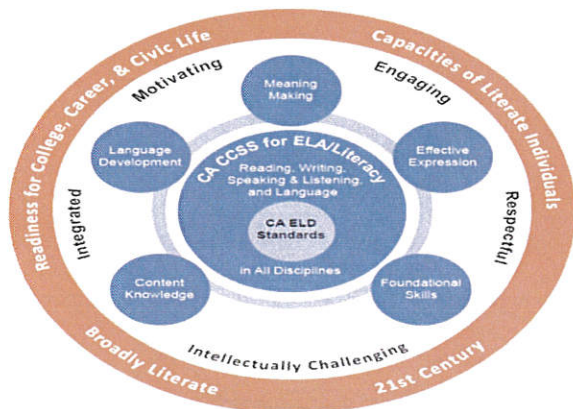

Students at this level are challenged to increase their English skills in more contexts, and learn a greater variety of vocabulary and linguistic structures, applying their growing language skills in more sophisticated ways appropriate to their age and grade level.

Bridging

Students at this level continue to learn and apply a range of high level English language skills in a wide variety of contexts, including comprehension and production of highly technical texts. The “bridge” alluded to is the transition to full engagement in grade level academic tasks and activities in a variety of content areas without the need for specialized ELD instruction.

2014 CALIFORNIA ELA/ELD FRAMEWORK

The purpose of the ELA/ELD Framework is to provide instructional guidance and lesson ideas for TK 12 teachers. It also guides curriculum development, program design, school leadership, and professional development. The ELA/ELD Framework integrates these two sets of standards and discusses them in terms of the five key themes pictured and listed below (ELA/ELD Framework, Ch. 2, p. 4).

2. Language Development
3. Effective Expression
4. Content Knowledge
5. Foundational Skills

ASSESSMENTS FOR CALIFORNIA (ELPAC) SYSTEM

Figure 1 presents the proposed role of the ELPAC in a dynamic system for developing English language proficiency. The proposed ELPAC conceptual model highlights a separate initial (diagnostic) screener and an annual summative assessment that will be aligned to the 2012 California English Language Development (ELD) Standards. The proposed ELPAC system would include a spring Annual Assessment window and a plan to move from a paper pencil test to an online test format compatible with the Smarter Balanced Assessment Consortium (SBAC) system. Boxes A and C have dotted borders indicating activities at the local level, and Boxes B and D have solid borders because they describe integral components of the assessment system.

California *Education Code*, Section 52164.1 (a) contains legal requirements that direct schools to determine the language(s) spoken in the home of each student. A Home Language Survey (HLS) must be completed by a parent or legal guardian upon initial registration of TK 12 students. New students enrolling in California schools for the first time may include, but are not limited to, migrant, immigrant, out of state transfers, special education, alternative education, transitional kindergarten (TK), and kindergarten students.

Prior to completing the HLS, parents are to receive an explanation regarding the purpose and uses of the HLS, as well as the possibility that their child may be given an assessment to measure their English language proficiency level. In particular, it should be made clear that the HLS is *not* used to determine a student’s language classification or immigration status. Each school office should have a designated staff member available to provide consistent information about the HLS, assessment process, and instructional program options offered to English learners (ELs).

The HLS consists of the following four questions:

1. Which language did your child learn when he/she first began to talk?
2. Which language does your child most frequently speak at home?
3. Which language do you (the parents or guardians) most frequently use when speaking with your child?
4. Which language is most often spoken by adults in the home?
(parents, guardians, grandparents, or any other adults)

See **HLS copies** in Appendix (English, and Spanish versions) **p.55757**

The answers provided for each HLS question are used to determine a student’s home language status:

- **English Only** (EO)
- **Possible English Learner – To Be Determined** (TBD)

HOME LANGUAGE SURVEY-CONTINUED

All four HLS questions must be answered and the HLS form must be signed by parent/guardian. The document becomes a permanent part of the student's cumulative record (CUM). The first, or **initial**, HLS (e.g., TK or K) for a student supersedes any other HLS forms completed at later times. Therefore, the answers provided on the **initial HLS**** are documented permanently in Aeries and CALPADS.

In order to determine a student's home language status, follow the guidelines below:

1. **ALL English on HLS questions #1-3 — mark "EO"**

The student is considered English Only (EO). Office manager will update student's language classification on Aeries. The initial HLS shall be added to the student's CUM folder and the student is placed in the district's general program.

2. **At least one response other than English on HLS questions #1-3 — mark "TBD"**

The student is designated as having a primary language other than English and the assessment process begins. A copy of the initial HLS shall be provided to the EL Site Contact. The HLS is placed in the student's CUM folder. The assessment process must take place **within 30 calendar days** of enrollment. EL Site Contact will update student's language classification (TBD—IFEP or EL). They will also add language test dates and results in Aeries. Student will be placed in the appropriate educational program based on the results of initial language testing.

3. **A language other than English on question #4 only — mark "EO"**

The student is considered English Only (EO) and placed in the district's general program. The language spoken most often *by the adults at home* does not determine the native language proficiency of the student.

Once home language determination is made, it does not need to be re-determined unless the results are disputed by the parent or guardian. If the HLS is completed in error, the parent/guardian may make a request to change it. However, once the student is assessed with the ELPAC and identified as an English learner, changing the HLS will not change the student's identification. A student's English learner status will change only when reclassification criteria are met. Parents cannot "opt out" of the ELPAC because English language proficiency assessment is both a federal (NCLB Title 1, section 1111 and Title III, 2002) and State requirement (Ed Code. 313).

ENGLISH LANGUAGE PROFICIENCY ASSESSMENT

Superintendent	<ul style="list-style-type: none"> Responsible for security & assessment procedures across district
Superintendent	<ul style="list-style-type: none"> Provides training, materials, technical assistance, support, and data collection

PROCEDURES FOR INITIAL ENGLISH LANGUAGE PROFICIENCY ASSESSMENT

- If Home Language Survey (HLS) indicates a primary language other than English (Questions 1-3), student will be assessed using the English Language Proficiency Assessments for California (ELPAC).
- Authorized and trained staff will administer the ELPAC **within 30 calendar days** of the student's enrollment.
- Local Scoring Tool (LST) data will be used until official ELPAC result are available to determine the following designations:

Initial Fluent English Proficient (IFEP): A student is considered Initially Fluent English Proficient when he or she has met the ELPAC criterion on the **initial** ELPAC test. Once determined, IFEP students require no further ELPAC testing and are placed in the school's general program.

- a) Students in grades TK-1 are considered to have met the ELPAC criterion for English Proficiency when:

Overall performance level is **Early Advanced or higher**, and

Domain scores for **Listening and Speaking** are at the **Intermediate level or higher**.

NOTE: If the ELPAC criterion level is met, the domain scores for Reading and Writing are *not* required to be at the Intermediate level for IFEP designation for TK-1 students.

- b) Students in grades 2-12 are considered to have met the ELPAC criterion for English Proficiency when:

Overall performance level is **Early Advanced or higher**, and

Domain scores for **Listening, Speaking, Reading, & Writing** are at the **Intermediate level or higher**.

English Learner (EL): Students who score **Intermediate or below (overall)** on the **initial** ELPAC are designated English learners (EL) and placed in the EL program. They must receive EL services and be re assessed annually using the ELPAC until they meet reclassification requirements.

PROCEDURES FOR PRIMARY LANGUAGE ASSESSMENT

1. Initial EL students are further assessed for primary language proficiency to provide additional information to design appropriate instruction and support services.
2. Schools are required to assess each English learner for proficiency in the primary language within **90 calendar days of first enrollment** in a California school “to the extent that assessment instruments are available . . .” (*EC 52164.1[c]*).
3. A trained district assessor shall assess students using the appropriate primary language instrument.
4. Home Language Survey (HLS) and Aeries must be updated with IPT score and date.

STUDENT RECLASSIFICATION

Principal	<ul style="list-style-type: none"> • Responsible for reclassification process at schoolsite • Coordinates celebration or recognition of reclassified students
English Learner Site Contact (ELSC)	<ul style="list-style-type: none"> • Identifies possible reclassification (RFEP) candidates • Consults with parents/guardians for input & approval • Oversees the completion of reclassification paperwork • Updates all EL records (paper & electronic) • Monitors progress & follow-up goals for RFEP students
Teacher	<ul style="list-style-type: none"> • Helps identify & monitor RFEP students • Helps complete RFEP paperwork & RFEP follow-up forms
Superintendent	<ul style="list-style-type: none"> • Coordinates reclassification procedures at district level
Superintendent	<ul style="list-style-type: none"> • Provides training and support to sites

The purpose of the reclassification (RFEP) process is to document when an English learner has sufficient English proficiency to be reclassified as a fluent English speaker. Once official ELPAC results are received, the reclassification process can begin for K–12th grade students. Teachers, support staff, school administrators, and parents participate in the reclassification process.

1. The classroom teacher may begin reclassification process and paper work.
2. District approved assessments will be used to evaluate language and academic achievement. All assessment scores must be current and meet district requirements.
3. Parent/Guardian(s) must be notified of student’s eligibility for reclassification. A conference may be scheduled to review reclassification criteria and student progress. Translation services will be provided as necessary. Parent(s) must sign and date completed reclassification paperwork. If the parent is unable to attend a conference, a person speaking the parents’ primary language shall consult with the parent by telephone.
4. The original LMUSD Reclassification Criteria form is given to the parent/guardian, and a copy is placed in the student’s green EL folder. The ELSC sends a list of reclassified students with official RFEP dates to the District Office.
5. After reclassification, students will be monitored every 5-6 months for two years using the LMUSD Reclassification Follow-Form.
6. For overview, see Reclassification Process Flowchart.

RECLASSIFICATION OF ENGLISH LEARNERS WITH DISABILITIES

Under current state law, students who are English learners must participate in the annual administration of the ELPAC until they are reclassified as Fluent English Proficient (RFEP). This means ALL students, including those with disabilities. The reclassification process in public schools is based on guidelines approved by the State Board of Education and is based on California EC Section 313(d). Los Molinos Unified will utilize the *Meeting the Needs of English Learners with Disabilities Resource Book*, by Jarice Butterfield from the Santa Barbara County SELPA, on behalf of the SELPA Administrators of California Association. The district and school sites will use Butterfield's resource book, as well as the ELPAC Information Guide, to provide additional professional development for EL Site Contacts and Individualized Education Program (IEP) team members to better support dual identified English learners (ELs with disabilities).

Los Molinos Unified is equipped to provide dual identified ELs with linguistically appropriate programs and support services to meet their unique needs. English learners with disabilities, including those with severe cognitive disabilities, will be provided the same opportunities to be reclassified as students without disabilities. Los Molinos Unified utilizes multiple measures and multiple criteria in determining whether a student has acquired sufficient English skills to perform successfully in academic subjects and meet IEP goals without ELD support.

Considering all guidelines, criteria, resources, and the individual needs of each dual identified English learner, the IEP team will determine the following:

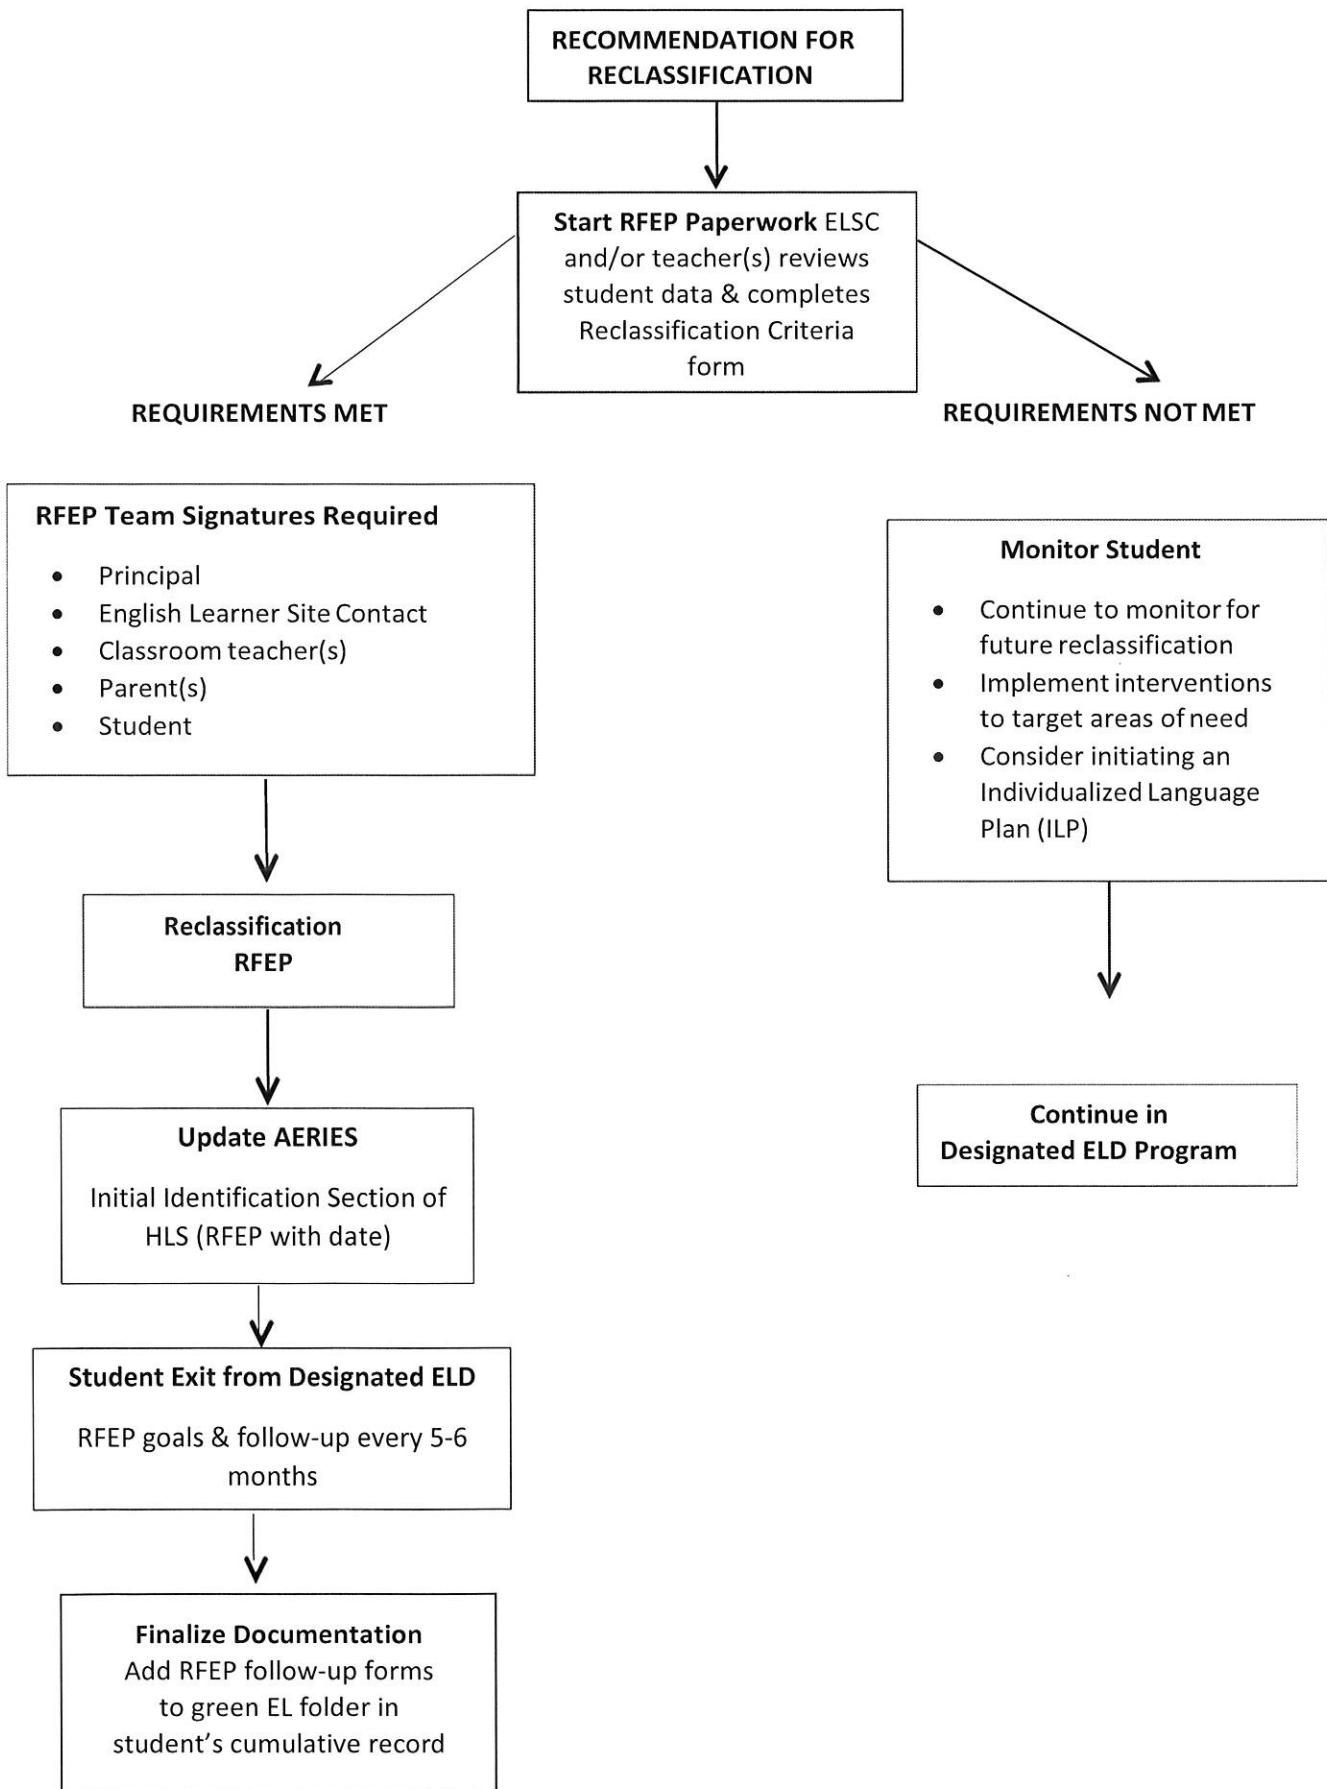

- Appropriate measures of English language proficiency (ELP)
- Appropriate measures of performance in basic skills
- Minimum levels of proficiency that would be equivalent to an English proficient peer with similar disabilities in accordance with district reclassification policies

In accordance with federal and state law, the IEP team may address the individual needs of each English learner with a disability using multiple criteria in concert with district reclassification criteria:

- Criterion 1: Assessment of ELP using an objective assessment instrument
 - Including, but not limited to the ELPAC
 - An alternate assessment may be used to measure the student's ELP on any or all four domains in which the student cannot be assessed using the ELPAC
 - IEP team can use the scores from an alternate assessment aligned with the state ELD standards for reclassification purposes
- Criterion 2: Teacher evaluation
 - Use the student's classroom performance information based on his or her IEP goals for academic and ELD
- Criterion 3: Parental opinion and consultation
 - The parent or guardian is a participant on the IEP team
- Criterion 4: Student's score on an assessment of basic skills
 - The IEP team should specify in the student's IEP an assessment of basic skills to meet the guidelines for reclassification (e.g., the California Alternate Assessment)
 - Other assessments may be considered that are valid and reliable and designed to compare basic skills of dual identified ELs to native speakers of English with similar disabilities

Using this information, the IEP team, including the parent and EL Site Contact, will decide whether or not to reclassify a student with disabilities. Other criteria may be used to supplement the four required criteria listed above to ensure the most appropriate decision is made for each student.

RECLASSIFICATION PROCESS FLOWCHART

INTEGRATED AND DESIGNATED ELD INSTRUCTION

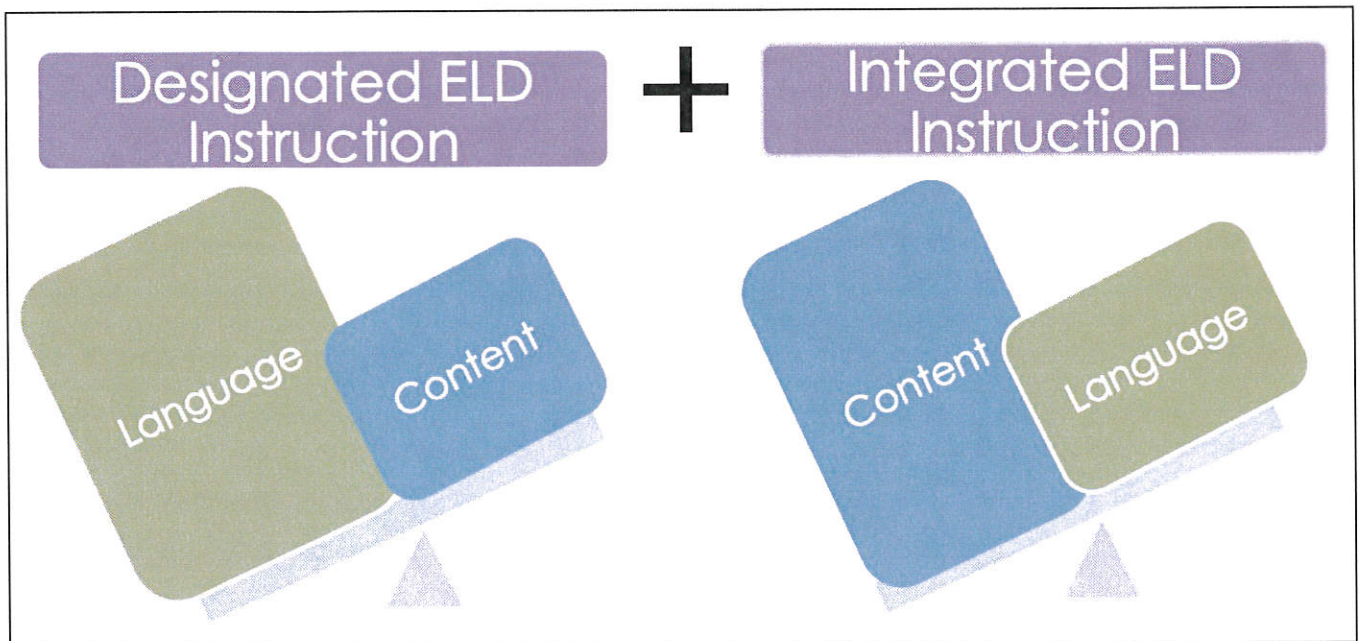

According to the ELA/ELD Framework, “**ELs at all English proficiency levels and at all ages require both integrated ELD and specialized attention to their particular language learning needs, or designated ELD.** Such a multilayered application of the CA ELD Standards requires deep collaboration between educators, support for teachers, and, most importantly, a sustained focus on the strengths and needs of individual ELs and a persistent belief that all ELs can achieve the highest levels of academic and linguistic excellence.” (Ch. 2, p. 97)

INTEGRATED ELD

The ELA/ELD Framework “uses the term integrated ELD to refer to **ELD throughout the day and across the disciplines.** All teachers with ELs in their classrooms should use the CA ELD Standards in addition to their focal CA CCSS for ELA/Literacy and other content standards to support their ELs’ linguistic and academic progress. The goal section of each set of grade level and grade span CA ELD Standards specifies that in California schools, ELs should engage in activities in which they listen to, read, analyze, interpret, discuss, and create a variety of literary and informational text types. Through these experiences, they develop an understanding of how language is a complex and dynamic resource for making meaning, and they develop language awareness, including an appreciation for their primary language as a valuable resource in its own right and for learning English.” (Ch. 2, p. 81)

DESIGNATED ELD

“**Designated ELD is protected time during the regular school day when teachers use the CA ELD Standards as the focal standards** in ways that build into and from content instruction in order to develop critical English language skills, knowledge, and abilities needed for content learning in English... an opportunity during the regular school day to support ELs to develop the discourse practices, grammatical structures, and vocabulary necessary for successful participation in academic tasks across the content areas.” (CA ELA/ELD Framework, Ch. 2, p. 91)

OVERVIEW OF PROGRAM OPTIONS FOR ENGLISH LEARNERS

English Learners entering LMUSD are placed in grade appropriate English Language Development classes.

Mainstream English with ELD: All elementary grade (K-5) students are placed in an English Language Mainstream with Integrated and Designated ELD support until they meet the district criteria for Reclassification. Students Receive additional support when needed based on the targeted sub-strands of the ELPAC/ELPAC.

English Language Development (ELD): Secondary students who are not yet fluent in English (Beginning or Early Intermediate levels on the ELPAC, or the Emerging level on ELPAC) at the secondary level are placed in an English Language Development program based on their grade level and individual needs.

Middle School English Language Development (ELD)

Students who are English Language Learners at the Middle School are provided with a variety of programs depending on their individual needs. Students who are beginning English learners (Newcomers) receive 2 periods of ELD per day and receive additional support in Reading. Students who are Intermediate or higher English Learners who have not yet reclassified receive 1 period of ELD and intervention when needed. Intervention may consist of an ELA intervention class or a Reading Class depending on the sub-strand area of need. Instruction is given in English; however, instruction may be given in the student's primary language as needed for support, clarification, or explanation.

Los Molinos High School Structured English Immersion Components/ ELD

Los Molinos High School uses district adopted curriculum that supports differentiated ELD. These materials include print, audio, graphic, and electronic resources. The development of cultural proficiency and positive self-esteem is embedded within the instruction. Core instruction is taught overwhelmingly in English with primary language support when possible. A mix of EDI (Explicit Direct Instruction) and SDAIE (Specially Designated Academic Instruction in English) instructional strategies are used to access core curriculum. Students at ELPAC Levels 1 and 2 receive 2 periods of ELD. Students at ELPAC Level 3 receive 1 period of ELD, 1 period of Academic Language Support, and 1 period of English Language Arts that meets A-G requirements. Students at ELPAC Level 4 receive 1 period of Academic Language Support and 1 period of English Language Arts that meets A-G requirements. Students at ELPAC Level 5 receive 1 period of English Language Arts that meets A-G requirements and support when needed.

2. Waiver requests must be submitted annually
3. Parents will receive a written description of the program options
4. All parental waivers shall be acted upon within 20 instructional days of submission to the school principal
5. Parental exception waivers shall be granted unless the school principal and educational staff have determined that an alternative program... would not be better suited for the overall educational development of the pupil (CCR, Title 5, section 11309[b][4])
 - a) In cases where a parental exception waiver is denied, parents/guardians must be informed in writing of the reason(s) for denial and advised of any procedures that exist to appeal the decision

“ . . . For these pupils to have access to quality education, their special needs must be met by teachers who have essential skills and knowledge related to English language development, specially designed content instruction delivered in English, and content instruction delivered in the pupils’ primary languages . . . ”

The California Commission on Teacher Credentialing (CTC) is responsible for establishing the teacher authorization process by which teachers are certified as having specified knowledge, skills, and abilities for providing instruction to ELs. District general funds provide appropriate core curriculum for each EL student. Resources include staff, curriculum materials, instructional supplies, and other district services available to students. District resources provide adequate services in ELD, primary language support, SDAIE, and instruction that promote each student’s self-image and cross-cultural understanding. Instructional supplies and appropriate curriculum materials are provided for each EL student, including primary language materials used to implement the district’s alternative program, e.g., textbooks, reading materials, and so forth.

Throughout the year, school site personnel purchase materials, both basic core and supplemental, as needed. Site requisitions are reviewed by district level staff to ensure monies are used appropriately. Staff at schools review school inventories and make purchasing recommendations based on site populations and need. Schools receive regulations, guidelines, and suggestions/recommendations for materials and expenditures from the District Business and Superintendent department.

Federal law requires that all employees funded with federal grant funds provide verification of their time worked in the federal program. Documentation is required to ensure that the district is properly charging salaries and wages that are reasonable, necessary and allowable in accordance with applicable federal program requirements. The resource codes involved with federal programs reviewed by CDE and that require time accounting forms are 3000[5999, Title I Part A & D; Title II Part A, Title III LEP, 21st Century Grant.

PROGRAM EVALUATION

Principal	<ul style="list-style-type: none"> • Oversees program evaluation procedures at school sites • Collects data & submits required paperwork to Special Projects
EL Site Contact	<ul style="list-style-type: none"> • Assists with the program evaluation process at school site • Oversees collection of data

Site Principal	<ul style="list-style-type: none"> • Provides assistance & support regarding assessment and evaluation data • Monitors English Language Acquisition reporting and data

The goal of program evaluation is to provide information about the effectiveness of Los Molinos Unified's EL services. The information provides guidance to district and school sites for implementation, monitoring, and improvement of programs for English learners.

An EL student folder will be updated and housed in the cumulative record of each English learner. The purpose of the student record is to document and monitor English language development, assessment, and redesignation. The folder contains copies of the Home Language Survey, ELPAC labels and assessment results, parent notification letters, and redesignation paperwork.

GOVERNANCE AND RESPONSIBILITIES

Quality Program Implementation

Successful program implementation depends on the presence of three critical elements: the commitment of the entire school community, the availability of qualified staff, and the timely allocation of sufficient resources. The district administration and school sites have essential and unique roles in program implementation.

District Administration

District administration will be responsible for providing sufficient resources to sites in order to successfully implement EL programs and services. These resources include qualified and well trained staff, instructional materials, supplies, equipment, staff development resources, and adequate facilities. Other district responsibilities include guidance in curriculum development, program compliance, improvement, evaluation and data analysis, master plan updates, and updates to Title III, LEA Plan Goal 2, and Local Control Accountability Plan (LCAP) to ensure quality program implementation.

School Site

The responsibility of school sites is to determine how to best deliver services to students. The distribution of the EL student population and the diversity of the school community are important factors to be taken into account when planning EL programs. The *Master Plan for English Learners* is a guide for program implementation, planning, and development of Single Plan for Student Achievement (SPSA). School sites are encouraged to work with district administration and review data from assessments and parent surveys to design programs that best meet student needs. Program quality is measured and monitored by effective use of resources, planning, program adjustments, and ongoing staff development.

Community

Parent advisory groups and the school community play an important role in the governance of all educational programs. School Site Councils and English Learner Advisory Committees (ELAC) have the responsibility to assist in the ongoing program planning and evaluation through committee and school activities. Parents will have discussion and input on LCAP, Title III, EL Master Plan, and SPSA updates.

CALPADS English Language Acquisition Data and Reports

The District Technology Department with support from the Curriculum & Instruction EL Services Department maintains a district and state database (CALPADS) that contains specific data on the English Language Acquisition status of students in the district. Each year the CALPADS submission window opens during which time local educational agencies (LEAs) may view certification reports of their English Language Acquisition Status students (including English learners and fluent English proficient students) along with Title III Eligible Immigrants data for all applicable students in CALPADS.

LOCAL PERFORMANCE INDICATORS

Basics (Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities) - Priority 1

Standard: LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; and provides information annually on progress meeting this standard to its local governing board and to stakeholders and the public through the evaluation rubrics.

Implementation of State Academic Standards - Priority 2

Standard: LEA annually measures its progress implementing state academic standards and reports the results to its local governing board and to stakeholders and the public through the evaluation rubrics.

Parent Engagement - Priority 3

Standard: LEA annually measures its progress in (1) seeking input from parents in decision making and (2) promoting parental participation in programs, and reports the results to its local governing board and to stakeholders and the public through the evaluation rubrics.

School Climate (Local Climate Surveys) - Priority 6

Standard: LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board and to stakeholders and the public through the evaluation rubrics.

Coordination of Services for Expelled Students (COE Only) - Priority 9

Standard: COE annually measures its progress in coordinating instruction as required by Education Code Section 48926 and reports the results to its local governing board and to stakeholders and the public through the evaluation rubrics.

Coordination of Services for Foster Youth (COE Only) - Priority 10

Standard: COE annually measures its progress in coordinating services for foster youth and reports the results to its local governing board and to stakeholders and the public through the evaluation rubrics.

For a local performance indicator, an LEA would use the standard to self-assess its performance as (i) Met, (ii) Not Met, or (iii) Not Met for Two

ENGLISH LEARNER PROGRAM EFFECTIVENESS PLAN

In keeping with the LEA Plan, the district has selected benchmarks and yearly goals for English learners in the subject areas of ELD, English language arts and mathematics. These achievement objectives reflect the amount of time an EL student has been enrolled in the program of language instruction in the district, and use consistent methods and measurements to reflect this achievement:

- English Language Proficiency Assessments for California (ELPAC)**
- CAASPP (English language arts and mathematics)
- District Assessment System

Los Molinos Unified School District has set the following annual goals for EL students in the area of ELD, English language arts and mathematics. ELD growth is measured by the ELPAC**. English language arts and mathematics are measured by the California Assessment of Student Performance and Progress.

ELPAC Level	Beginning	Early Intermediate	Intermediate	Early Advanced	Advanced	RFEP
Timeline toward reclassification, based on ELPAC level** at time of initial enrollment year	1 st year	2 nd year	3 rd year	4 th year	5 th year	6 th year

(EC Section 306[c])

Descripción y Meta del Programa para Estudiantes de Inglés

ELPAC NOTIFICATION LETTER SEI
Federal Title III and State Requirements**

Dear Parents or Guardians:

State and federal laws require all school districts in California to give a state test of English proficiency to students whose primary language is not English. A student's primary language is identified on a home language survey, which is completed by the parents or guardians upon registering their child in a California public school for the first time. In California, the name of the state test is the English Language Proficiency Assessment (ELPAC).

The results of the ELPAC help to measure how students' progress towards proficiency in English in the areas of listening, speaking, reading, and writing.

When your child enrolled in our school, he/she was given the ELPAC, and the results are attached. These test results have identified him/her as **English learner**. Your child will be assigned to an appropriate English language instructional support program based on the results. The goal of this program is to help your child become proficient in English and succeed in the school's academic curriculum. Your child will be in a **Structured English Immersion** program. It is designed to meet the educational needs of English learners who score "less than reasonable fluency" on the ELPAC. Students are taught ELD and other core subjects by authorized teachers using district adopted textbooks and supplementary materials. Instruction is based on ELD and grade level content standards. Students will exit this program into the English Language Mainstream when "reasonable fluency" has been met or Reclassification if those requirements have been met.

If you have any questions regarding the ELPAC or your child's instructional placement, please contact your school office.

Sincerely,

Los Molinos

ELPAC NOTIFICATION LETTER SEI
Federal Title III and State Requirements**

Estimados Padres:

Las leyes estatales y federales requieren que todos los distritos escolares de California administren cada año una prueba estatal que mide el nivel de inglés en estudiantes identificados como estudiantes de inglés (conocidos en inglés como *English Learners*). En California esta prueba se llama la Prueba para Medir el Desarrollo del Inglés en California (conocida como la prueba ELPAC). Los resultados de la prueba ELPAC ayudan a medir el progreso de cada estudiante en las áreas de comprensión auditiva, expresión oral, lectura y expresión escrita.

Su niño(a) ha participado en la prueba ELPAC en el año presente escolar, y los resultados están adjuntos. De acuerdo con el nivel que demostró en esta prueba, su niño(a) recibirá apoyo instructivo en el idioma inglés. Al revisar los resultados de la prueba ELPAC de su niño(a) de este año, es importante recordar que estos resultados son sólo una medida del progreso de su niño(a) hacia el mejoramiento de su nivel del idioma inglés. Su hijo estará en **un programa de inmersión en inglés estructurado**. Está diseñado para satisfacer las necesidades educativas de los estudiantes de inglés que tengan una calificación “menos fluidez razonable” en el ELPAC. Los estudiantes se les enseña ELD y otras materias básicas por profesores autorizados usando libros de texto adoptados por el distrito—y materiales complementarios. Instrucciones se basa en los estándares de contenido ELD y nivel de grado. Los estudiantes al salir de este programa en el lenguaje corriente principal de inglés cuando “fluidez razonable” se había cumplido esos requisitos.

Si necesita información adicional respecto al progreso educacional de su niño(a), comuníquese con la oficina de su escuela.

Atentamente,

Excerpts from Education Code 300-340

SECTION 1: Chapter 3 (commencing with Section 300) is added to Part I of the *Education Code*, to read:

300. The People of California find and declare as follows:

- a) Whereas, The English language is the national public language of the United States of America and of the State of California, is spoken by the vast majority of California residents, and is also the leading world language for science, technology, and international business, thereby being the language of economic opportunity; and
- b) Whereas, Immigrant parents are eager to have their children acquire a good knowledge of English, thereby allowing them to fully participate in the American Dream of economic and social advancement; and
- c) Whereas, the government and the public schools of California have a moral obligation and a constitutional duty to provide all of California's children, regardless of their ethnicity or national origins, with the skills necessary to become productive members of our society, and of these skills, literacy in the English language is among the most important; and
- d) Whereas, the public schools of California currently do a poor job of educating immigrant children, wasting financial resources on costly experimental language programs whose failure over the past two decades is demonstrated by the current high dropout rates and low English literacy levels of many immigrant children; and
- e) Whereas, Young immigrant children can easily acquire full fluency in a new language, such as English, if they are heavily exposed to that language in the classroom at an early age.
- f) Therefore, it is resolved that: all children in California *public* schools shall be taught English as rapidly and effectively as possible.

305. Subject to the exceptions provided in Article 3 (commencing with Section 310), all children in California public schools shall be taught English by being taught in English. In particular, this shall require that all children be placed in English language classrooms. Children who are English learners shall be educated through sheltered English immersion during a temporary transition period not normally intended to exceed one year. Local schools shall be permitted to place in the same classroom English learners of different ages but whose degree of English proficiency is similar. Local schools shall be encouraged to mix together in the same classroom English learners from different native language groups but with the same degree of English fluency. Once English learners have acquired a good working knowledge of English, they shall be transferred to English language mainstream classrooms. As much as possible, current supplemental funding for English learners shall be maintained, subject to possible modification under Article 8 (commencing with Section 335) below.

306. The definitions of the terms used in this article and in Article 3 (commencing with Section 310) are as follows:

- a) "English learner" means a child who does not speak English or whose native language is not English and who is not currently able to perform ordinary classroom work in English, also known as a Limited English Proficiency or LEP child.

"English language classroom" means a classroom in which the language of instruction used by the teaching personnel is overwhelmingly the English language, and in which such teaching personnel possess a good knowledge of the English language

- b) “English language mainstream classroom” means a classroom in which the pupils either are native English language speakers or already have acquired reasonable fluency in English.
- c) “Sheltered English immersion” or “structured English immersion” means an English language acquisition process for young children in which nearly all classroom instruction is in English but with the curriculum and presentation designed for children who are learning the language.
- d) “Bilingual education/native language instruction” means a language acquisition process for pupils in which much or all instruction, textbooks, and teaching materials are in the child’s native language...

310. The requirements of Section 305 may be waived with the prior written informed consent, to be provided annually, of the child’s parent or legal guardian under the circumstances specified below and in Section 311. Such informed consent shall require that said parents or legal guardian personally visit the school to apply for the waiver and that they there be provided a full description of the educational materials to be used in the different educational program choices and all the educational opportunities available to the child. Under such parental waiver conditions, children may be transferred to classes where they are taught English and other subjects through bilingual education techniques or other generally recognized educational methodologies permitted by law. Individual schools in which 20 pupils or more of a given grade level receive a waiver shall be required to offer such a class; otherwise, they must allow the pupils to transfer to a public school in which such a class is offered.

311. The circumstances in which a parental exception waiver may be granted under Section 310 are as follows:

- a) Children who already know English: the child already possesses good English language skills, as measured by standardized tests of English vocabulary comprehension, reading, and writing, in which the child

scores at or above the state average for his or her grade level or at or above the 5th grade average, whichever is lower; or

- b) Older children: the child is age 10 years or older, and it is the informed belief of the school principal and educational staff that an alternate course of educational study would be better suited to the child’s rapid acquisition of basic English language skills; or
- c) Children with special needs: the child already has been placed for a period of not less than thirty days during that school year in an English language classroom and it is subsequently the informed belief of the school principal and educational staff that the child has such special physical, emotional, psychological, or educational needs that an alternate course of educational study would be better suited to the child’s overall educational development. A written description of these special needs must be provided and any such decision is to be made subject to the examination and approval of the local school superintendent, under guidelines established by and subject to the review of the local Board of Education and ultimately the State Board of Education. The existence of such special needs shall not compel issuance of a waiver, and the parent shall be fully informed of their right to refuse to agree to a waiver...

315. In furtherance of its constitutional and legal requirement to offer special language assistance to children coming from backgrounds of limited English proficiency, the state shall encourage family members and others to provide personal English language tutoring to such children, and support these efforts by raising the general level of English language knowledge in the community. Commencing with the fiscal year in which this initiative is enacted and for each of the nine fiscal years following thereafter, a sum of fifty million dollars (\$50,000,000) per year is hereby appropriate from the General Fund for the purpose of providing additional funding for free or subsidized programs of adult English language instruction to parent or other members of the community who pledge to provide personal English language tutoring to California school children with limited English proficiency

316. Programs funded pursuant to this section shall be provided through schools or community organizations. Funding for these programs shall be administered by the Office of the Superintendent of Public Instruction, and shall be disbursed at the discretion of the local school boards, under reasonable guidelines established by, and subject to the review of, the State Board of Education.

320. As detailed in Article 2 (commencing with Section 305) and Article 3 (commencing with Section 310), all California school children have the right to be provided with an English language public education. If a California school child has been denied the option of an English language instructional curriculum in public school, the child's parent or legal guardian shall have legal standing to sue for enforcement of the provisions of this statute, and if successful shall be awarded normal and customary attorney's fees and actual damages, but not punitive or consequential damages. Any school board member or other elected official or public school teacher or administrator who willfully and repeatedly refuses to implement the terms of this statute by providing such an English language educational option at an available public school to a California school child may be held personally liable for fees and actual damages by the child's parent or legal guardian...

325. If any part or parts of this statute are found to be in conflict with federal law or the United States or the California State Constitution, the statute shall be implemented to the maximum extent that federal law, and the United States and the California State Constitution permit. Any provision held invalid shall be severed from the remaining portions of this statute.

330. This initiative shall become operative for all school terms which begin more than sixty days following the date on which it becomes effective...

335. The provisions of this act may be amended by a statute that becomes effective upon approval by the electorate or by a statute to further the act's purpose passed by a two thirds vote of each house of the Legislature and signed by the Governor...

Under circumstances in which portions of this statute are subject to conflicting interpretations, Section 300 shall be assumed to contain the governing intent of the statute

Fall 2020

Dear Parent/Guardian:

You indicated that your child's primary or home language is not English when registering your child for school. In California public schools, all students entering school for the first time will be assessed with the Initial English Language Proficiency Assessments for California, or "Initial ELPAC", if their home language is not English.

The initial ELPAC is the test used to determine if a student is an English learner or is fluent in English. The required test will help identify students who need help learning English. This is important so they can get the support they need to do well in all school subjects.

Based on the home language survey results, your child will be assessed with the Initial ELPAC.

You are an important part of your child's education. To help your child get ready for the test, you can:

- Read to your child, or have them read to you on a regular basis.
- Use pictures and ask your child to tell you what they see, or what is happening in each picture.
- Provide your child with opportunities to use language outside of school.
- Talk with your child's teacher about your child's listening, speaking, reading, and writing skills to help support their progress.

To learn more about the ELPAC, go to the California Department of Education Parent Guide to Understanding the ELPAC Web page at <https://www.cde.ca.gov/ta/tg/ep/elpacparentresource.asp>

You also can look at a sample test questions on the ELPAC practice tests, which can be found on the ELPAC website <https://www.elpac.org/resources/practicetests/>

If you have any questions about your child taking the ELPAC, please contact **Haley Hansen at Los Molinos Elementary** at hhansen@lmsud.net (530) 384-7903 or **Emma Flores for Los Molinos High School and Vina Elementary** at eflores@lmsud.net (530) 384-7900.

Otoño del 2020

Estimado Padre/Tutor,

Cuando usted inscribió a su hijo/a en la escuela, usted indicó que el idioma del hogar o principal de su hijo/a no es el inglés. En las escuelas públicas de California, todos los estudiantes que ingresan a la escuela por primera vez serán evaluados con las Evaluaciones Iniciales de Dominio del Idioma Inglés para California, o “ELPAC Inicial”, si su idioma del hogar o principal no es el inglés.

El ELPAC inicial es el examen que se usa para determinar si un estudiante es un aprendiz de inglés o lo domina con fluidez. El examen requerido ayudará a identificar a los estudiantes que necesitan ayuda para aprender inglés. Esto es importante para que los estudiantes puedan obtener el apoyo que necesitan para desempeñarse bien en todas las materias escolares.

Según los resultados de la encuesta del idioma del hogar, su hijo/a será evaluado con el ELPAC inicial.

Usted es una parte importante de la educación de tu hijo/a. Para ayudar a su hijo a prepararse para la prueba, puede:

- Leerle a su hijo/a o pídale que le lea a usted regularmente.
- Usar dibujos y pídale a su hijo que le diga lo que ven o lo que sucede en cada dibujo.
- Brindar a su hijo oportunidades para usar el lenguaje fuera de la escuela.
- Hablar con el maestro de su hijo/a sobre las habilidades de escuchar, hablar, leer y escribir de su hijo/a para ayudar a respaldar su progreso.

Para obtener más información sobre ELPAC, vaya a la página web de la Guía para padres para entender el ELPAC del Departamento de Educación de California en <https://www.cde.ca.gov/ta/tg/ep/elpacparentresource.asp>

También puede ver unos ejemplos de preguntas del examen en los exámenes de práctica de ELPAC, que se pueden encontrar en el sitio web de ELPAC. <https://www.elpac.org/resources/practicetests/>

Si tiene cualquier pregunta acerca de que su hijo este tomando el ELPAC, **comuníquese con Haley Hansen para Los Molinos Elementary a hhansen@lmusd.net (530) 384-7903 o Emma Flores para Los Molinos High School y Vina Elementary a eflores@lmusd.net (530) 384-7900.**

(Education Code 313)

The state assessment shall be administered in accordance with test publisher instructions and 5 CCR 11511-11516.6. Variations and accommodations in test administration may be provided to English learners pursuant to 5 CCR 11516-11516.6.

Any student with a disability who is identified as an English learner shall be allowed to take the assessment with those accommodations for testing that the student has regularly used during instruction and classroom assessment as delineated in the student's individualized education program (IEP) or Section 504 plan. If the student is unable to participate in the assessment or a portion of the assessment even with such accommodations, an alternate assessment for English language proficiency shall be administered to the student as set forth in his/her IEP. (5 CCR 11516-11516.7; 20 USC 1412)

(cf. 6152.51 - State Academic Achievement Tests)

d. The specific exit requirements for the program, the expected rate of transition from the program into classes not tailored for English learners, and the expected rate of graduation from secondary school if applicable

e. Where the student has been identified for special education, the manner in which the program meets the requirements of the student's IEP

4. Information about the parent/guardian's right to have the student immediately removed from a program upon the parent/guardian's request

The Superintendent or admin designee shall maintain procedures for the accurate identification of English learners and an assessment of their proficiency and needs in the areas of listening, speaking, reading, and writing in English using the CELDT and ELPAC state assessments.

Once identified as an English learner, a student shall be annually assessed for language proficiency until he/she is reclassified based on criteria specified in the accompanying administrative regulation.

English learners' academic achievement in English language arts, mathematics, science, and any additional subject required by law shall be assessed using the California Assessment of Student Performance and Progress. As necessary, the test shall be administered with testing variations in accordance with 5 CCR 853.5 and 853.7. English learners who are in their first 12 months of attending a school in the United States shall be exempted from taking the English language arts assessment to the extent allowed by federal law. (Education Code 60603, 60640; 5 CCR 853.5, 853.7)

(cf. 6152.51 - State Academic Achievement Tests)

Language Acquisition Programs

In establishing the district's language acquisition programs, the Superintendent or designee shall consult with parents/guardians and the community during the LCAP development process. He/she shall also consult with administrators, teachers, and other personnel with appropriate authorizations and experience in establishing a language acquisition program. (Education Code 305)

The district shall offer English learners a structured English immersion program to ensure that English learners have access to the core academic content standards, including the English language development standards, and become proficient in English. In the structured English immersion program, nearly all of the classroom instruction shall be provided in English, but with the curriculum and presentation designed for students who are learning English. (Education Code 305-306)

For the purpose of determining the amount of instruction to be conducted in English in the structured English immersion program, "nearly all" means that all classroom instruction shall be conducted in English except for clarification, explanation, and support as needed.

At the beginning of each school year or upon a student's enrollment, parents/guardians shall be provided information on the types of language acquisition programs available to students enrolled in the district, including, but not limited to, a description of each program. (Education Code 310)

(cf. 5145.6 - Parental Notifications)

When an English learner is determined pursuant to state and district reclassification criteria to have acquired a reasonable level of English proficiency pursuant to Education Code 313 and 52164.6, or upon request by the student's parent/guardian, the student shall be transferred from a language acquisition program into an English language mainstream classroom.

Parental Exception Waivers

When allowed by law, the parent/guardian of an English learner may submit a request that his/her child be exempted from placement in a structured English immersion program and instead be placed in a class where he/she is taught English and other subjects through bilingual education techniques or other generally recognized educational methodologies permitted by law. (Education Code 310-311)

Each waiver request shall be considered on its individual merits with deference given to parental preference for student placement.

A waiver request shall be granted in accordance with law unless the principal and educational staff have determined that an alternative program would not be better suited to the student's overall educational development. (5 CCR 11309)

If the Superintendent or designee denies the waiver request, he/she shall provide a written justification to the parent/guardian describing the reasons for the denial. A parent/guardian may appeal the decision in writing to the Board. The Board may consider the matter at its next regular Board meeting. The Board may decide not to hear the appeal, in which case the Superintendent's decision shall be final. If the Board hears the appeal, the Superintendent shall send the Board's decision to the parent/guardian within seven working days.

Program Evaluation

To evaluate the effectiveness of the district's educational program for English learners, the Superintendent or designee shall report to the Board, at least annually, regarding:

1. Progress of English learners towards proficiency in English
2. The number and percentage of English learners reclassified as fluent English proficient

3. The number and percentage of English learners who are or are at risk of being classified as long-term English learners in accordance with Education Code 313.1
4. The achievement of English learners on standards-based tests in core curricular areas
5. Progress toward any other goals for English learners identified in the district's LCAP
6. A comparison of current data with data from at least the previous year

The Superintendent or designee also shall provide the Board with regular reports from any district or school wide English learner advisory committees.

§ 11300. Definitions.

“School term” as used in Education Code section 330 means each school’s semester or equivalent, as determined by the local governing board, which next begins following August 2, 1998. For multitrack or year-round schools, a semester or equivalent may begin on different days for each school track.

§ 11301. Knowledge and Fluency in English.

- a) For purpose of “a good working knowledge of English” pursuant to Education Code Section 305 and “reasonable fluency in English” pursuant to Education Code section 306(c), an English learner shall be transferred from a structured English immersion classroom to an English language mainstream classroom when the pupil has acquired a reasonable level of English proficiency as measured by any of the state[designated assessments approved by the California Department of Education, or any locally developed assessments.
- b) At any time, including during the school year, a parent or guardian may have his or her child moved into an English language mainstream classroom.
- c) An English learner may be re-enrolled in a structured English immersion program not normally intended to exceed one year if the pupil has not achieved a reasonable level of English proficiency as defined in Section 11301(a) unless the parents or guardians of the pupil object to the extended placement.

Note: Authority cited: Section 33031, Education Code. Reference: Sections 305 and 306(c), Education Code.

§ 11302. Duration of Services.

School districts shall continue to provide additional and appropriate educational services to English learners in kindergarten through grade 12 for the purposes of overcoming language barriers until the English learners have:

- a) demonstrated English language proficiency comparable to that of the school district’s average native English language speakers; and
- b) recouped any academic deficits which may have been incurred in other areas of the core curriculum as a result of language barriers.

§ 11303. Parental Exception Waivers

- a) Parents and guardians must be informed of the placement of their children in a structured English immersion program and must be notified of an opportunity to apply for a parental exception waiver. School districts shall establish procedures for granting parental exception waivers as permitted by Education Code sections 310 and 311 which include each of the following components:
1. Parents and guardians must be provided with a full written description and upon request from a parent or guardian, a spoken description of the structured English immersion program and any alternative courses of study and all educational opportunities offered by the school district and available to the pupil. The descriptions of the program choices shall address the educational materials to be used in the different options.
 2. Pursuant to Education Code section 311(c), parents and guardians must be informed that the student must be placed for a period of not less than thirty (30) calendar days in an English language classroom and that the school district superintendent must approve the waiver pursuant to guidelines established by the local governing board.

Parental exception waivers shall be granted unless the school principal and educational staff have determined that an alternative program offered at the school would not be better suited for the overall educational development of the pupil.

- b) All parental exception waivers shall be acted upon by the school within twenty (20) instructional days of submission to the school principal. However, parental waiver requests under Education Code section 311(c) shall not be acted upon during the thirty (30) day placement in an English language classroom. These waivers must be acted upon either no later than ten (10) calendar days after the expiration of that thirty (30) day English language classroom placement or within twenty (20) instructional days of submission of the parental waiver to the school principal, whichever is later.
- c) In cases where a parental exception waiver pursuant to Education Code sections 311(b) and (c) is denied, the parents and guardians must be informed in writing of the reason(s) for denial, and if relevant, advised of any procedures that exist to appeal the decision to the local board of education.
- d) For waivers pursuant to Education Code section 311(a) and for student for whom standardized assessment data is not available, school districts may use equivalent measures as determined by the local governing board.

Note: Authority cited: section 33031, Education Code. Reference: Sections 305, 310 and 311, Education Code.

- a) Upon written request of the State Board of Education, school district governing boards shall submit any guidelines or procedures adopted pursuant to Education Code section 311 to the State Board of Education for its review.

Any parent or guardian who applies for a waiver under Education Code sections 311 may request a review of the school district's guidelines or procedures by the State Board of Education. The sole purpose of the review shall be to make a determination as to whether those guidelines or procedures comply with the parental exception waiver guidelines set forth in Section 11303.

Note: Authority cited: Section 33031, Education Code. Reference: Sections 305, 310 and 311, Education Code.
